

CITI Requirement

CITI certification is required prior to beginning the Capstone Practicum and Project.

All students must show evidence of completion of the CITI courses PRIOR to starting Capstone Program (Practicum and Project).

Research is essential for the advancement of medicine and public health. Among many things, it can provide us with important information about disease trends and risk factors, and outcomes of treatment or public health interventions.

As public health practitioners you will more than likely participate in research at one time or another. Everyone involved in research at the University of Miami must complete a course in research ethics. While a student at UM, you may complete this course online via the *Collaborative Institutional Training Initiative* (CITI). We believe that the topics covered are a beneficial adjunct to your current curriculum and will provide you with a strong research foundation. In addition, this is something you will be required to have in order to participate in an innovative, school-based service-learning experience of your MPH courses.
